DL/25-8/

From

The Secretary to the
Bombay Legislature Department.

To

The Secretary to the Govt. of Bombay,
Education Department,

Sir,

I am to forward herewith 5 copies of the 17th Report of the Estimates Committee pertaining to your Department which was presented to the Legislative Assembly and the Legislative Council on 1st and 2nd March 1955.

2. The Reports would be discussed by the Legislative Councial on the 28th March 1955 and by the Legislative Assembly on the 29th and 30 March 1955.

Yours faithfully,

Sd/-

(A.V.LOBO),
for Secretary to the Bombay Legislature Department,

For infomation. Id/- 4-3-55.

Shri K.

Please leand over the requires below to Secy. D.S. AND U.S..

Id/- 5-3-55.

DL/2[illegible]-8/

Recommendation of the Estimatee Committee(17th Report): (Education Department).

S.No. (Paragraph of the Report).	Recommendations.	Officeremarks.	Remraks.
(1)	(2)	(3)	(4)
1.	Continuance or otherwise of the post of Personal Assistant to the Director of Education should be reconsidered after two years when it might be reviewed if circumstances so warrant.	No action is required for the present. The question maynbe reviewed after two years.	Yes, Id/- B.B.S.
2.	Decentralisation of powers of the Heads of Departments. The Committee recommends that the Government may consider this question and see whether it is possible and if so, how far it is possible to decentralise thepowers of the heads of departments, including the powersof the Director Education so that the work of the heads of Department is mainimised.	This is a general suggestion and it will will have to be considered by the Political and Services Deprtment. No action is necessary for the present.	We shall also have to find outthe extent this is possi in the case o D.E., D.T.E. a as also W.Is.
3.	Land for Agricultural Schools. In view of the policy of Government to privide more and more agricultural schools or schools with agricultural bias, the difficulty in securing land for the purpose shouldbe removed as promptly as possible and if necessary acquisit acquisition under the urgency clause may be resorted to.	Primary Schools in which the craft of agriculture has already been introduced have got the required land. In the case of schools where this craft is proposed to be introduced, land is either secured from the villagers or from the Collectors of the Districts concerned in accordance with the orders contained in G.O.,R.D.No. LRF 53/127384, dated 11-12-53. Under this G.O., the collectors have been directed to lease suitable Govt. waste lands wherever available to the schools for agricultural purposes, on a nominal rent of Re.1/-. per annum. In view of this position, difficulty in securing land for agricultural schools is not much felt. In cases where land cannot be secured either from the villagers and if suitable Govt. waste land is not availabe, land is being secured through acquisition process. Such cases are, however, few,	

2....

(1)	(2)	(3)	(4)

(3) Contd...

The D.E. may, however, be consulted in the matter and he may be asked to state whether it is necessary to resort to acquisition under the urgency clause. On receipt of the Directors's remrks the matter may be taken up with the Revenue Department.

4. Grants to Libraries,
The Committee thinks that in order to give full scope for the library movement, grants should also be made to the taluka town libraries, to libraries in other towns in the taluka with a population above 5,000/- and to libraries meant for women and/or children also along with the village libraries and district libaries.

We have increased grants to Regional and District Libraries under the Five year plan with the aid of the Government of India. Grant to Village Libraries are also increased under Social Education Scheme. In the next year it has been proposed to give grants to town and libraries.

Town and Bal Li
are being covre
was not conside
necessary to gi
grants to Kabil
Libraries. They
in only in Baro
They can form p
the regular Lib

5. Trainingion Automobile Engineering.
The Committee has noticed t at at present there are no adequate arrangements for imparting training, whether higher or lower, inautomobile engineering. When asked in this conection the Secretary told the Committee that a scheme to such purpose has been sent in by the State Transport Corporation. Under that scheme it is proposed to train peropie in the Lapoli Workshop for absorption intheir own organisation. They would also train others. There is also a sugge tion to impart higher training in automibile engineering in Victoria Jebilee Technical Institute. The Committee thinks that it is necessary that some adequate arraggements for training in automobile engineering at different leavels should be provided in the State. The committee therefore recommends that the matter should be taken up and arragements made for imparting such training.

Id/- B.

Facilities exist at the following institutions for training in Automobile Engineering.
(i) V.J.T.I., (ii) S.N.P.P.Polytechnic Inst., urt, (Iii) M.H.Paboo Siddik Inst;, Bombay (iv) F.S.Paredh Tech., Inst., Surat, and (v) School of Industry Ratnagiri.

It is also proposed to introduce post-graduate course in Automobile Engg. at the College of Engg., Poona under the Second Five Year Plan of the D.T.E. It is also propgsed to establish polytechnices in the various ists. in the State on the completion of the scheme of starting one tech. schools in each ist. Requisite proposal to include the scheme in the Second Five Year Plan has already been approved by this Deptt. and forwarded to the P & S.D. Provision for imparting training in Automobile Engg. will be made under that

...3...

1	(2)	(3)	
		Will be made under that Scheme. As however the estimate Committee has recommedned for provision of such training at all levels the D.T.E. may perhaps be consulted.	
6.	Schools of Industry at Ratnagiri. The Committee thinks that the name of the schools is rather misleading and more appropriate name should be found for the school, having regard to the nature of instruction given.	The D.T.E. may be asked to rename the School, Ratnagiri suitably, Industrial.	
7.	Technical Schools. The committee thinks that technical schools should be opened in each district as early as possible Efforts should also be made to convert the existing technical schools wherever opportunities exist nto a diploma awarding institution by suitable additions to available accommodation, equipment and staff. The committee further thinks that in order to help working class people, some of the technical schools should be used for opening up night technical schools. In the opinion of the Committee this will give much wanted opportunity to the working class people to obtain technical education while they are earning their bread, and the arrangements suggested is not likely to involved Govt., in any great cost and such additional cost ~~and-s~~ would be quite worthwhile. The committee, therefore, recommends accordingly.	By Dec 1955 every District in the State will have one Tech. High School at least These Schools are proposed to be established by either having altogether new schools or converting the existing schools into etch. schools. Under the Second ~~establishm~~ Five Year Plan of the D.T.E. it is proposed to establish Dist. polytechnics catering for deiploma and certificate courses in different ~~of the~~ engineering subjects. As for the suggestion of the estimates committee to start night technial schools for the working classes. it is not known whether it will be possible to start such night schools as it may not be practicable to have machine practice in the workshops of these schools, at night. The D.T.E may, however, be asked to consider this suggestion and favour Govt. with remarks in the matter.	This shall have be considered. I think some taken advantage of suc Part-time course Id/-B.S

8. Provision for education of mentally and physically handicapped children.
Looking to the number of phisicall & mentally handicapped children in the State the Committee feel that adequate provision is not being made for the education and training of the physically and mentally handicapped children in the Stant and hope that Government will takem the necessary steps to make adequate arrangements in this direction.

This Deptt. is doing whatever it can according to the availability of funds. Grants to the special schools are given at 2/3rd of the audited expenditure or at Rs.30/- per pupil per month. The qustion of providing additional facilities may be examined in consultation with D.E. and C.I.C.S.

Id/-B

9. Repairs to Primary School Buildings.
The Committee accordingly recommedns that the Department should get the matter scrutinised as to what extent the cost of repairs should be based on the initial cost of the building, the age of the building, or on the number of rooms available in the building and also on the basis whether the repairs are ordinary or special and see to what extent devolution of power of spending can taken place.

The remarks of the Director of Education may be obtained. The remarks of the Bombay Legislative Assembly and Bombay Legislative Council may first be awaited.

Yes, we may to consult P.W.D. also.

Id/- B.B.S.

10. Government contribution to provident fund in case of RE-employed teachers.
The Committee feels that it is not right and proper to continue Government's contribution in the case of re-employed superannuated teachers or in the case of teachers who may be continued in service after reaching the age of 55. The committee, after reaching the age of 55. The committee, therefore recommends that Government may takem the necessary steps to stop such contribution.

--do--

I don't think we allo except in the case of tea who were not to get the f benefit of the P.F.Scheme we have laid down the dat for this purpose office ought to have put up the reference.

Id/- B.B.S.

11.) Pertain to the Backward Class Department.
12.)

Education Department is not concerned now. This is for the D.D.(S.& R.) to examine.

5.....

(1)	(2)	(3)	(4)
13.	Caste and income certificates from Backward Class students. The Committee after carefully considering the pro and cons of the matter thinks that along with the stipendiary Magistrates, Honorary Magistrates who can be found almost in each talukas may also be authorised to issue the caste certificate. The committee also thinks that if a caste certificate has been previously produced by a member of a cert in family the heads of institutions should not insist upon having a similar certificate in the case of other members of the same family. The committee hopes that necessary instructions would be issued early to the authorities concerned in the matter.	The question of revising the present procedure with a view to minimising the difficulties of Backward Classes has already been taken up and necessary orders issued (vide G.R.E.D. No.WBC. 1054, dated the 10th March '55).	
14.	Social education Scheme. (a) Villages where social education work is done excellently suitable rewards should be given to them by way of recognition of their work. This will hold out an inducement to the villages to do more work and a spirit of healthy competition would ensue for doing this work as has been seen in the case of similar competitions in respect of a agricultural produce. (b) Appointment of a sub-committee for the work of social education scheme, under the District Development Boards.	Director of Education's remarks may be obtained after Bombay Legislative Assembly's and Bombay Legislative Council's remarks are received.	I am afraid such rewards will onl increase fraudu practices. This question of awak in the village a that can not be d by inducement of prizes. Id/- B.B.S. This has already implemented and sub-comm have appointed in the/- i (/most of)

(1)	(2)	(3)	(4)
(6)	Promotion of Primary teacher should be made to depend upon the results achieved by them in the matter of Education. Social.	This is difficult to accept as pro motions are to be granted not only on the work of Social Education but other fundamental duties of primary teachers as well. We may agree to consider social education work as one of the criteria for promotion but not the sole criteria for promotion. However, the Director's remarks may be called for in the matter, after Assembly's and Councils remarks are received.	I think this done. Moreove of term incre also provided should check Id/- B.B.
15.	Janata Colleges. The Committee suggests that the name Janata College should be changed to a more suitable one which would give a correct idea of the nature of training to be imparted.	This is a name given by the Government of India. In other places such Institutions are known as Janta Colleges. As these institutions are to be opened under the Five year Plan of Educational Development planned by the Government of India, it would be proper to retain the same designation. However, the question may be considered when we may open these institutions, probable from the next school year.	I donot think substantively the name thou other name w been better. Id/- B.B. The name may be જનતા વિદ્યાલય Janata Vid Id/- A.S.
16.	Umarkhadi Remand Home. Having regard to the congested conditions in which the inmates are residing at present in the Umarkhadi Remand Home, it appears to the Committee that it is essential to change the Home immediately to some other place where more land is available and where the inmates would be trained in agriculture and other crafts. A suggestion was made that the present plot might be profitably sold and arrangements made for the Remand Home elsewhere, and the children committed to certified school may be shifted to another place.		

16 Continue.....

The Committee also thinks that there should be separate arrangements for repeaters so that the first offenders may not come under their influence. The Committee recommends accordingly.

This question will have to be examined afresh in consultation with the Chief Inspector of Certified Schools as regards the transfer of the home to some other place and also as regards the sale of the plot. To remove congestion it is proposed to expand the Certified school at Marsinas where some of the boys will be transferred.

BOMBAY LEGISLATIVE ASSEMBLY.

Order of Business for the Day.

Friday, the 1st April 1955 (2 p.m.)

I. QUESTIONS AND ANSWERS-

(1) Starred questions Nos. *4373, *4492 and *4415 from Twenty-fifth Starred List.

(2) Twenty-sixth Starred List.

(3) Starred Qeustion No. *3234 by Shri M.M.Kamble M.L.A., regarding retrenchment of Talathis in Pandharpur Division of Sholapur District.

(4) Starred Question No. *3480 by Shri A.L.Jadhav, M.L.A., regarding expenditure on construction of a bridge located in Surat District from out of the funds sanctioned for Dangs District.

(5) Starred Question No. *4061 by Shri R.T.Bagade, M.L.A., about Audit of Kolhapur District Cooperative Bank;

(6) Starred Question No. *4083 by Shri R.T.Bagade, M.L.A., regarding adverse remarks by special Auditor against the administration of Kolhapur District Central Bank.

II. Application for leave of absence by Shri B.B.Patil M.L.A.,

III. Consideration of the Estimates Committee's Reports.

Assembly Hall,
Bombay,
31st March, 1955.

S.H.Belavadi.
Secretary to the B'bay Legislative Assembly.
